FACT (Statewide)

62% of all induced abortions involved pregnancies of less than nine weeks.

Induced abortion statistics have been prepared in Ohio since 1976. The 2020 Annual Abortion Report presents information derived from both the “Confidential Abortion Reports” and “Post-Abortion Care Reports for Complications” in Ohio; reporting forms are included as Appendices I and II. Readers should note that abortion statistics in this report are limited to terminations occurring in Ohio; they do not include Ohio residents who obtained abortions outside the state.
